OPAQUE TIGHTS

Thermofabric™ tights are opaque yet thin and breathable, promote rapid evaporation of perspiration. Perfect for cooler weather, these tights for guys provide some warmth outdoors, but aren't too hot indoors like thermal underwear can be. The footed tights styles are intended to replace men's socks and underwear with one comfortable garment and they are opaque at the ankles, so no additional socks are needed.

SHEER PANTYHOSE

Microfabric™ sheer pantyhose can be seen through easily and are very lightweight. Thin and breathable, they promote rapid evaporation of perspiration. Dryness keeps legs and feet cool in summer, warm in winter, and comfortable all the time. Perfect for cooler weather, they provide some warmth outdoors, and aren't too hot indoors like thermal underwear can be. Mantyhose ("male pantyhose") are intended to replace men's socks and underwear with one comfortable garment.

OPAQUE AND SHEER SOCKS

Opaque socks are ideal for athletics, leisure, travel, office wear, and formal wear. They are the men's equivalent to what women call "trouser socks."

Sheer socks are easily seen through and very lightweight. Order in skin-matching color for invisible, cool, casual barefoot look, or in contrasting color for dress socks look. They are also great as a liner under athletic socks prevent blisters and provide extra thermal insulation.

STOCKINGS

Support stockings are perfect for those who prefer their own boxers or briefs, but want above-the-knee support, thermal insulation, or chafing prevention all the way to the top of the thigh. Two fabrics available: Thermofabric™ is opaque, and Microfabric™ is sheer. Now you can be comfortable in your own underwear but still get the support above the knee that only a unique product like this can offer.

BRIEFS

Customers have asked for novel products besides legwear, so here are a selection of unique nylon briefs for men that you won't find anywhere else. The men's boxer briefs are knitted especially for us to our design specifications for men and they are fabulous. The rest of the men's briefs are cut from nylon tricot and sheer nylon, and sewn to our design specifications by a custom supplier. All of them are guaranteed to give you comfort and enjoyment!

LOUNGEWEAR

Extraordinary! That's the word that best describes these new styles of loungewear, made in two different fabulous all-nylon fabrics: (1) silky slippery nylon tricot and (2) sexy sheer nylon. The tricot styles are semi-opaque, sensuous, and delightful to wear. The sheer styles are cool and comfortable for hot weather because the open knit breathes incredibly well. They're both comfortable, either by themselves or with outer clothes.
